## Built on a tradition of snacking

---

### OUR STORY

Born in Granny Carolyn's cozy West Virginia kitchen, the Krisps were created to mix family and fun together. Deliciously dippable and perfectly pair-able, they blend the texture of a cookie with the Krisp of a cracker.

Years later, it's clear that Carolyn knew exactly what she was doing. A snack too good not to share, they go beyond simple baking, helping to create connections, encourage community and bring a fresh spin to the spirit of snacking.
